2. Meeting Agenda

Brief note for the end of the SwEng project.

From Monday - 4 weeks left.

Almost there, keep going!

Brief note for exams in May.

Let me know how you're coping.

New restrictions on GitHub branches.

Unit tests are now in place for the whiteboard and text chat.

TutorPoint Project - Start of Iteration 6:

032 - Dynamic Home Screen

James, Oli Still

85%

027 - User Stream Select

James, Stijn

80%

025 - Webcam Streaming to Server

Che

- Merge and make sure the program functions correctly. I would feel more comfortable having the program in a state (before exams) where it is submittable - Oli C (Concerned that with exams in a week or two, we will not complete the project with regards to functional spec; or the program submitted will have bugs/crash)

Dan, Eric - Testing and integration for Iteration 5.

Stijn - Continue with JavaFX Designs.

Cameron - Continue with HTML (slow down on the hours haha - Oli Clarke says don't slow down, keep smashing it lad).

Oli Clarke - Financial Report III & Financial Summary.

QA Metrics:

Report to Cameron or James any missing metric logs.

Other Deliverables:

Financial Report III - Due Friday 1st May (Oli Clarke) -

Financial Summary Report - Due Friday 22nd May

Demonstration and Sales Presentation
