    Oli Clarke
024 - Presentation Video Sharing
    Dan, Eric
025 - Webcam Streaming
    Che
030 - Subject Profile List (Completed)
    James

Tokens Vs UserID:

Which should we implement?

Using both seems to cause confusion.

User ID - Unique to a user permanently.

Token - Unique to a user only while connected to the server.

HTML:

Oli Still and Cameron will now work on the HTML

Oli Still will also be working on the CSS application design with Stijn.

QA Metrics:

Report to Cameron or James any missing metric logs.

Show current state of charts.

Other Deliverables:

HTML Tour

Financial Report III

Financial Summary Report

Demonstration and Sales Presentation

3. Closing Notes

LOG HOURS NOW - https://clockify.me/tracker

Have a good week!

Next meeting 11:00 - 12:00 Monday 20th April.
